ABOUT THE MILL HOUSE

The foundations of The Mill House were formed in the back yard of a home in the Harris Mill village around 2006. Good beer, good pizza, and good company were good times to be had on the mill hill. In 2009 the market took a turn for the worse, and partners Gianpaolo Bonaca and Paul Bartolomeo found a building in a quiet part of town, and began working on a plan to bring the same good times from Harris Mill to what would become The Mill House.

Once we (barely) got open, The Mill House began to come alive on its own with a strong team and a welcoming community. Since starting as a small pizza and sandwich shop, we continue to broaden our menu, cultivate a fine craft beer selection, host Sunday brunches and beer dinners, and keep the Good Times brews flowing from our on-site brewery. But none of this would have been possible without our dedicated team and outstanding customers. We always love to hear your feedback to help us make this a better experience for you.

For your convenience, we include 18% gratuity on parties of seven (7) or more.

We have this stuff down to a science. No substitutions, please. Jun 2020
